ABOUT US

Chemitrade Industrial Coatings (Pvt) Ltd was incepted in the year 1983 by a team of paint industry specialists with a passion for producing high quality wood coatings & industrial paint solutions. The key product manufactured by Chemitrade during early stages of the business operation was Industrial Thinner of the highest quality which soon became popular amongst wooden furniture manufacturers in Moratuwa, a suburban city in Colombo popularized for quality wood work, furniture and the sale of wood. Gradually Chemitrade became well known in the industry with an exciting set of innovative solvent and water based paints.

Chemitrade Paints is a brand that has proven its metal in the city of Moratuwa, the furniture and wood work hub of Sri Lanka known for the most skillful wood workmanship. Chemitrade is endorsed for its superior quality by all stakeholders in the industry which is also a testament to the highest quality standards set by us and the passion for paint production.

Currently our product portfolio consists of Water Based Wood Coatings, Solvent Based Wood Coatings, Auto Refinish Paints, Enamel Paints, 2KPU Wood Coatings and a range of Solvent and Water Based Wood Adhesives. Based on the ethos of our founders, Chemitrade Industrial Coatings has established a firm foot print across Sri Lanka by providing the highest quality products for over 40 years.

Powered by the efforts of our dedicated team, Chemitrade Industrial Coatings (Pvt) Ltd is continuously striving to expand its product portfolio to offer the best paints and coating solutions to discerning customers, proudly manufactured in Sri Lanka.

Our Vision

"To become the most loved paint manufacturer in Sri Lanka and reach customers beyond borders"

Our Mission

Be Better and Do Better

"We strive for continuous improvement in our manufacturing processes to churn out high quality products that delight customers. Sustainable innovation is at the heart of our operation with a very customer centric approach which provides proactive solutions to customer wants. We value all our stakeholders and believe in mutual business growth. We motivate all our people to become better versions of themselves and do better to the stakeholders, wider society and the environment everyday."

VALUES

- Customer Centricity
- Transparency
- Integrity
- Pursuit of Excellence
- Equity & Inclusivity
- Thrive Together

WATER BASED WOOD SOLUTIONS

(INTERIOR / EXTERIOR)

WATER BASED WOOD STAIN

Colored with highly durable, UV-resistant transparent iron oxide pigments and a specialty binder system that can penetrate deeply into the wood. Can mix with the same kind of stains to get an infinite number of colors. These stains penetrate evenly into the wood pores and develop rich color that enhances the natural beauty of wood. Finally, it becomes a part of the wood and not just a surface film.

Chemitrade water based wood stain is a penetrable & preservative-type wood stain for both interior & exterior wooden surfaces.

Features and Benefits

- Natural Finish
- Infinite Color Customization
- Withstands Rain & Sea Breeze
- UV Resistant
- Advanced Fungi & Algae Resistance
- Easy to Apply
- Environmentally Friendly & Low VOC

Pack sizes - 4L, 1L and 500ML

WATER BASED TOP COAT – GLOSS/MATT

Chemitrade water based wood lacquer is formulated for both interior & exterior wooden surfaces. It gives excellent protection while retaining the natural appearance for a longer period. It has such advantages as good adhesion, easy application, flexibility, resistance to microbes, resistance to the sun's UV rays and sea breeze, and good gloss retention. Gloss and matte coats can be mixed in different proportions to obtain different gloss levels. **Both products have very low VOC content.

Features and Benefits

- Long Lasting Excellent Gloss/Matt Finish
- No Cracks appearing and Color Fading
- Extend The Lifetime of a Wood
- Withstands Rain & Sea Breeze
- UV Resistant
- Advanced Fungi & Algae Resistance
- Environmentally Friendly & Low VOC

Pack sizes – 4L, 1L and 500ML

WATER BASED PRIMER – CLEAR

Chemitrade water based primer is an undercoat with strong adhesion properties that forms an excellent sanding & filling properties. The absorption of the applied topcoat can be minimized because of the high barrier properties of the primer. It is suitable for any wooden surfaces that require good barrier/sealing properties. After sanding, it forms a smooth surface, which gives excellent load-bearing capacity to the wood surface. It has very low VOC (volatile organic compound) content.

Features and Benefits

- Extends the Lifetime of Wood
- Excellent Sealing and Filling Properties
- No Cracks Appearing and Damages
- Excellent Adhesion
- Low Shrinkage
- Wood Grain Raising Property

Pack sizes – 4L, 1L and 500ML

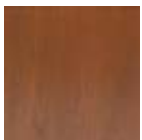

WATER BASED ALL-IN-ONE

Chemitrade Paints water-based All in One (stain, sealer, topcoat) is a ready-to-use paint suitable for Exterior & Interior wooden surfaces. This product gives a rich look of color to the wood and enhances the appearance & protects from extreme weather conditions. It is suitable for garden furniture, pergolas, fences & ceilings, etc.

Features and Benefits

- Easy to Apply (DIY)
- Semi-Gloss Finish
- Withstands Rain & Sea Breeze.
- UV Resistant
- Advanced Fungi & Algae Resistance
- Infinite Color Customization
- Environmentally Friendly & Low VOC

Pack sizes - 4L, 1L and 500ML

SOLVENT BASED WOOD SOLUTIONS

(INTERIOR)

NC SANDING SEALER

Chemitrade sanding sealer is a high solid / high viscos unique product that will ensure the load bearing capacity of natural & artificial wood. So, it is considered as a foundation coating for any wood. It can also provide a protective barrier against wear/ tear and moisture movements. Its barrier properties enhance the spreading capacity of the any top coat applied. Its grain enhancing power will preserve the natural appearance and colour of the wood. It has excellent durability, good adhesion to wood and top coats.

****Sanding Sealer – Premium and Regular**

Features and Benefits

- Fast Drying
- Easy Sanding Shortly after Application
- Very Good Filling Properties
- No Absorption of the Over Coat

Pack sizes – 5L, 4L, 1L, 500ML, and 200ML

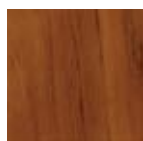

NC STAIN

Solvent based NC stains colored with specialty pigments to enhance the esthetic effect and protection of wood substrate. Very fast drying and can mix with same kind of NC stains to get infinite number of colours. Recommended for Interior use only.

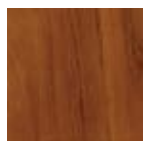

Features and Benefits

- Superior Visual Appeal
- Fast Drying
- Easy to Apply
- Infinite Color Customization
- Perfect Base for Any Finish
- Easy Spray Application

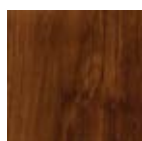

Pack sizes - 4L, 1L, 500ML, and 250ML

NC TOP COAT - GLOSS/MATT

Consists of a highly durable, scratch-resistant binder system recommended for different types of wood surfaces. Recommended for interior use only.

Features and Benefits

- Fast Drying
- Long-lasting, Excellent Gloss/Matt finish
- Resistant to Abrasions and Cracks
- Ability to Retain Color and Resist Moisture

Pack sizes - 4L, 1L, and 500ML

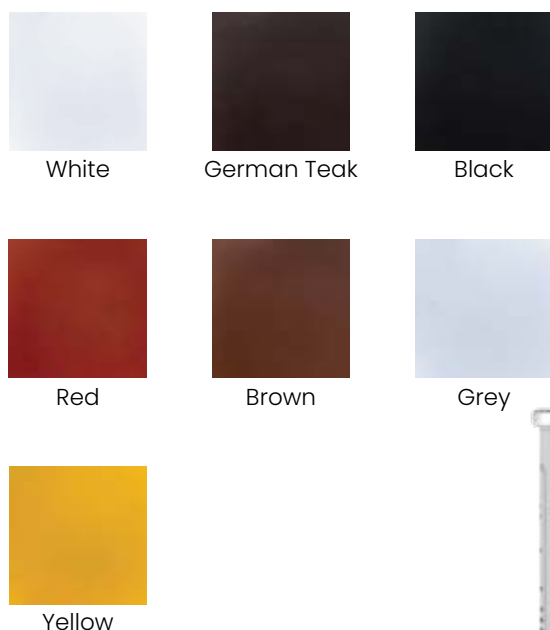

NC PRIMER

A high-quality single pack quick drying undercoat based on modified Alkyd with Nitrocellulose, specially formulated for priming any kind of timber. The primer has high opacity, film build up, deep penetrating and sealing properties. It helps to increase the durability and longevity of your paint job and helps the top coat for better adhere to the surface.

Features and Benefits

- Exceptional Sealing & Barrier Properties
- Fast Drying & Quick Recoating
- Superior Filling & Levelling
- Smooth Uniform Finish
- Excellent Color Retentive Properties
- Infinite Color Customization

Pack sizes – 5L, 4L, 1L, 500ML and 200ML

PU WOOD COATING SOLUTIONS

2 PACK PU WOOD COATINGS

Chemitrade two-component (2K) PU wood coating system designed for use in interior woodwork/furniture has superior durability and higher solids, which can obtain high levels of physical performance and reduction of labour cost while reducing the number of coats. The Chemitrade 2K PU system consists of sealers, stains, and topcoats with gloss, satin, and matt.

Chemitrade 2k PU top coats have tolerance to hot water, steam, moisture, and most of the household chemicals while making a hydrophobic barrier layer that keeps the substrate from deteriorating.

When 2K PU is cured, it generates a firm/stable surface that resists scratches, spills, tears, and basically mark-proof film.

- **2Pack – PU Base Coat – Clear and Colors**
- **2Pack – PU Top Coat – Gloss**
- **2Pack – PU Base Coat – White**
- **2Pack – PU Base Coat – Ivory**
- **2Pack – PU Top Coat – Matt 10% – 40%**
- **2Pack – PU Top Coat – Matt 60 & White/Colors**
- **2Pack – PU Hardener**
- **2Pack – PU Thinner**

Features and Benefits

- Highly Resistant to Scratches & Heat
- Long-lasting, Excellent Gloss/Matt finish
- Resistant to Most Household Chemicals
- Guards Against Moisture, Steam, and Boiling water
- Offering Luxurious Smooth Finishes and Excellent Protection
- No Cracks or Peeling

Pack sizes – 5L and 1L

PU VARNISH CLEAR/COLOURS

Chemitrade PU Varnish gloss is formulated for interior wooden furniture, wooden structures, door panels & frames, skirting boards, plywood, etc. The main advantages are good adhesion, easy application, high gloss & gloss retention.

Features and Benefits

- Fast Drying
- Easy to Apply
- Long-lasting Sleek Gloss finish
- Resistant to Abrasions and Moisture
- Good Flexibility

Pack sizes - 4L, 1L, and 500ML

ENAMEL PAINTS

Chemitrade high gloss air drying enamel is a classical long oil alkyd based coating recommended for metal and wood surfaces. It has remarkable adhesion and excellent gloss & gloss retention. It also highly washable and scratch resistance with good hiding power and film build.

Features and Benefits

- Color Retention and Luxury Appearance
- Excellent Surface Durability with Hard, Tough Film with Moisture and Stain Resistance
- Excellent Adhesion and Coverage with High Opacity
- Aesthetic Versatility with Available in a Range of Finishes: From Full Gloss to Semi-gloss and Matt Finishes

Pack sizes - 4L, 1L, and 500ML

WOOD PROTECTION AND ADHESIVES

WOOD PRESERVATIVE – CLEAR

Chemitrade solvent-based wood preservative is a clear liquid that quickly dries and is absorbed by wood. It contains effective insecticide & fungicide to protect wood against wood-rotting fungi and wood-destroying insects.

It is advisable to use on new and bare timber. It can easily be absorbed into the wood and retained inside of the wood to resist fungal & surface mold.

This is a ready-to-use product, and there is no need for dilution. Recommended for brush & dipping application.

Features and Benefits

- Fast Drying
- Maintains Natural Wood Appearance & Finishability
- Deep Penetration & Long-Term Protection
- Enhanced Weather and Fungal Resistance for Exterior/Exposed Applications

Pack sizes – 10L, 4L, 2L and 1L

SOLVENT BASED ADHESIVE

The product is a solvent-based synthetic contact adhesive designed for the foam, fabric, and upholstery industry.

Features and Benefits

- Superior Instant Bonding Power
- High Heat & Peel Resistance
- Fast Drying & Time-Saving Application

Pack sizes – 4L, 1L, 500ML, 200ML and 125ML

WATER BASED ADHESIVE

High-quality water-based adhesive for woodwork, cardboard & packaging paper works.

Features and Benefits

- Superior Bonding Strength
- Quick Drying for Faster Assembly
- Multi-Purpose Versatility
- Easy to Apply & Clean
- No Strong Odour or Harmful Fumes

Pack sizes – 4L, 1L, 500ML, 200ML and 125ML

INDUSTRIAL COATINGS

INDUSTRIAL COATINGS

Chemitrade N.C. Auto re-finish coating system based on Nitrocellulose and has been especially developed by Chemitrade paints to achieve excellent strength, durability and fast-drying properties. It is a high-performance painting system for vehicles and all metal surfaces, for indoor and outdoor use.

Chemitrade has following categories in industrial paints.

- Primers based on special types of Alkyd resins & Nitrocellulose with various ancillary products
- Stoving paints – Primers & Top coats
- Epoxy paints – 2K & 1K Primers and Top coats
- PU paints – 2k Primers and Top coats
- Acid Curing paints – Primers & Top coats for wood applications
- Various grades of industrial Thinners & cleaning Thinners

QD Zinc Phosphate Primer

Chemitrade Q/D Zinc Phosphate primer is a pigmented coating with Zinc Phosphate as the main anticorrosive pigment, dispersed in a fast-drying modified binder system. A quick drying Zinc Phosphate primer is a fast-curing, solvent-based anti-corrosive coating that protects steel by forming a passive Phosphate layer while providing a physical barrier against moisture. **Product is recommended for ferrous substrate only.

Features and Benefits

- Corrosion Resistance (General Industrial)
- Non-toxic vs Chromates/Lead
- Good Adhesion to Steel
- Compatible with Many Topcoats (Alkyd, PU, Epoxy)
- Cost-effective

Pack sizes – 4L, 1L and 500ML

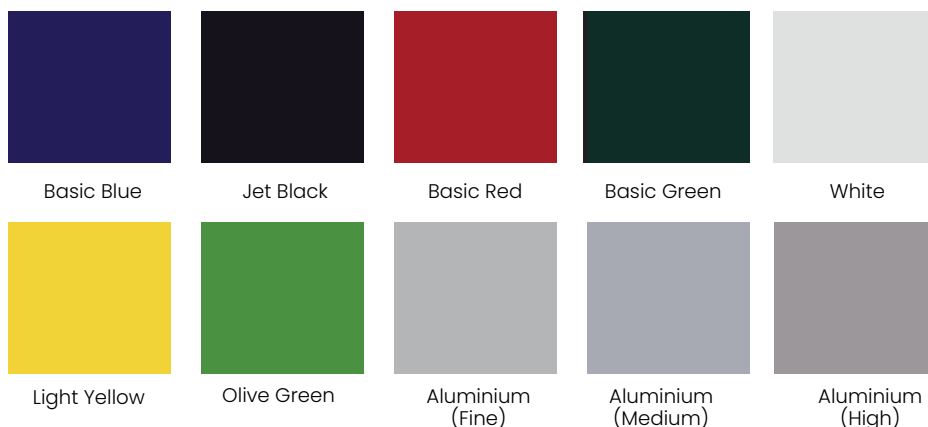

AUTO PAINTS

Chemitrade N.C. Auto re-finish coating system based on Nitrocellulose and has been especially developed to achieve excellent strength, durability and fast-drying properties. It is a high-performance painting system for vehicles and all metal surfaces, for indoor and outdoor use.

Chemitrade has following categories in Auto Refinishing paints.

1. Ancillaries - Undercoats (NC & non NC based)
Filler Gray, Brown Laquer, Matting Base
2. NC Top Coats - White, Jet black & colours
3. NC Basic Silver colours
4. NC Thinners
